What is a 100MW solar project in Zambia?

POWERCHINA, an integrated construction group, has launched a 100MW solar project in Zambia. The Kabwe solar project is reportedly the single largest photovoltaic (PV) project by installed capacity in the country. Located in the Chisamba district, this project is Zambia's state-owned power company ZESCO's first solar initiative.

What is Zambia's first solar project?

Located in the Chisamba district, this project is Zambia's state-owned power company ZESCO's first solar initiative. Apart from the 100MW solar station, the project also features a 33/132kV step-up station, a 2.7km double-circuit 132kV transmission line, and an expanded substation.

What is a 100 MW solar station & a 132kV substation?

Apart from the 100MW solar station, the project also features a 33/132kV step-up station, a 2.7km double-circuit 132kV transmission line, and an expanded substation. The development is set to deliver 180 million kilowatt hours of clean electricity annually, serving 150,000 households and resulting in a 30% decrease in the region's power shortages.

Who is powerchina?
