Why do you need warranty insurance for your energy storage system?

Our warranty insurance solutions help to secure your sustainable business in the long run. Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more.

How long do energy storage systems last?

Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more. As a manufacturer and system integrator you have to provide your customers with warranties.

What is the Sungrow ESS warranty?

1.1 This warranty is effective for the Sungrow ESS (Energy storage systems), including its peripheral devices (PCS, BCP, Batteries, HVAC, EMS, etc.), hereinafter referred to as the "Products". 1.2 Depending on your location, the warranty may be performed out by Sungrow's regional affiliates.

When is the warranty transferable?

5.1 The warranty is transferable when the Products remains installed in its original location. This means, when the ownership of the Products has changed, the new owner shall continue to benefit under this warranty. Further, a lessee or assignee may obtain consent from the owner of the Products and make a claim under this warranty.

Why do we need reliable energy storage systems?

Renewables like wind and solar energy are intermittent by nature. To successfully master the energy transition, reliable energy storage systems are a must to provide the necessary supply stability.

Does Sungrow offer extended warranty?

2.4 Where applicable, extended warranty must be purchased along with the purchase of the Product. 2.5 Sungrow may offer paid lifetime service for the products, such as repairs or upgrade to its latest models, even after the expiry of the warranty under clause 2.1 or the extended warranty under clause 2.4.
