We are Chiang Mai's most trusted self storage company with over 8 years of experience and a solid reputation within the expat and long stay community. o We store your household goods, cars, and motorbikes. o Your goods can be collected and returned when you need them.

What is a battery energy storage system?

Battery energy storage systems (BESS) are essential for buildings and renewable power generation facilities to ensure uninterrupted electricity supply. Renewable sources like solar and wind power are intermittent, and influenced by weather patterns. BESS mitigates this issue by storing electricity for future use.

What is Thailand's 2024 Power Development Plan?

Thailand's 2024 power development plan (PDP) aims to increase renewable energy use, highlighting the importance of BESS alongside solar panels and wind turbines. This could create new business opportunities for entrepreneurs if prices decrease or new technologies emerge for stationary batteries.

Could a sodium-ion battery be a new business opportunity in Thailand?

The Federation of Thai Industries' Renewable Energy Industry Club sees potential in sodium-ion battery (SIB) production as an alternative to lithium-ion batteries. SIBs, made from rock salt, could offer a new business opportunity given Thailand's abundant rock salt reserves.

Will CMU buy solar energy?

CMU will buy the electricity produced from the system, including solar rooftop installation and energy storage system, which is developed and installed by BCPG, with Power Ledger as digital energy partner. - The project which covers a period of 20 years will see the installation of solar panels on more than 150 buildings in the University.

Does bcpG have solar power plants in Thailand?

BCPG also has solar farms in Thailand with the total contractual power generating capacity of 141 megawatts (MW). The company operates its solar power plants in Thailand and Japan. BCPG is headquartered in Bangkok, Thailand. All publicly-announced smart grid projects included in this analysis are drawn from GlobalData's Power IC.
