Summary: In the presence of President His Highness Sheikh Mohamed bin Zayed Al Nahyan, Abu Dhabi Future Energy Company PJSC - Masdar and Emirates Water and Electricity Company (EWEC) today announced the launch of the world's first large-scale 'round the clock' gigascale project, combining solar power and battery storage in Abu Dhabi.

Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

What is EWEC doing in Abu Dhabi?

Located in Abu Dhabi, the project will feature a 5.2 gigawatt DC solar photovoltaic plant, coupled with a 19 gigawatt-hour battery energy storage system, setting a global benchmark in clean energy innovation. "In collaboration with EWEC and our partners, we will develop a renewable energy facility capable of providing clean energy round the clock.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Is Dubai a good place to invest in solar power?

The region does boast some of the world's most ambitious solar PV projects, such as the Mohammed bin Rashid Al Maktoum Solar Park in Dubai, which has a planned 5GW generation capacity by 2030 from both solar PV and concentrated solar power (CSP).

How will the solar power and battery storage project impact the economy?

The record-breaking solar power and battery storage project will create over 10,000 new jobs, driving innovation and economic growth

What is a 19gwh battery storage facility?

The 19GWh battery storage facility will enable seamless integration of solar power into the grid. By integrating state-of-the-art renewable technologies with energy storage solutions, this landmark project exemplifies the UAE's commitment to scaling innovative clean energy solutions to meet evolving energy demands.

Located in Abu Dhabi, the project will feature a 5.2GW (DC) solar photovoltaic (PV) plant, coupled with a 19 gigawatt-hour (GWh) BESS, setting ...
