Summary: Check out the top solar panel manufacturers in the US, such as First Solar, Hanwha QCELLS, Canadian Solar, T1 Energy, and Illuminate USA.

-----

Are there any American made solar panels?

And if you're looking to support American workers and energy independence, there are plenty of U.S.-made solar panels available. In fact, some of these panels (and the inverters they connect to) are among the top-rated, most popular solar equipment on the EnergySage Marketplace. Who are America's top solar manufacturers?

Which solar companies are based in America?

Although only one of the top five manufacturers (First Solar) is fully U.S.-based, many other American companies are expanding their solar manufacturing operations. Smaller firms like SEG Solar, Solar4America, and Mission Solar continue to grow, while new factories are opening across the country.

How many companies make solar panels?

Looking at the broader supply chain for solar components, there are 52 companies that manufacture those products in the U.S., according to the DOE. These components include inverters, controllers, racking systems, and more. Another 12 U.S. outfits can recycle old solar equipment.

Where are solar panels made?

Four of the biggest manufacturers are headquartered in China and primarily manufacture equipment there (though one of them, Jinko Solar, does have an American manufacturing facility in Florida). The fifth largest manufacturer is a Canadian company, Canadian Solar, which also has a manufacturing facility in Texas.

Who makes first solar panels?

Ohio-based First Solar is the largest manufacturer of solar panels in the U.S., producing about 50% more panels than the next-biggest American-made brand.

Who are the best solar companies in the United States?

Operating out of California, Auxin Solar is one of the few manufacturers producing solar modules entirely in the United States. They are known for their advocacy for fair trade and have been involved in policy debates concerning solar tariffs. 11. Crossroads Solar Crossroads Solar stands out not just for its products but also for its mission.
