Why did first solar invest in a float line in Johor Bahru?

In this investment, an existing float line at the Johor Bahru factory of Malaysian Sheet Glass SDN BHD, a member of NSG Group, has been converted to begin producing TCO glass starting in December. This investment is to support First Solar's expansion strategy, which has a long-standing strategic partnership with NSG Group.

When will TCO glass be made in Malaysia?

NSG Group is pleased to announce the warm up of a newly converted TCO (transparent conductive oxide) facility in Malaysia. In this investment, an existing float line at the Johor Bahru factory of Malaysian Sheet Glass SDN BHD, a member of NSG Group, has been converted to begin producing TCO glass from December 2023.

Where are NSG solar panels made?

In order to meet the growing global demand for solar panels especially those manufactured by our strategic partner First Solar, NSG Group started operation of the second dedicated float line for solar glass in Vietnam in January 2020, and a new plant in Luckey, Ohio, USA has been operating since November 2020.

Who makes solar energy glass?

The glass produced in these plants is exclusively supplied to First Solar. The Group is also considering expanding further capacity for solar energy glass in USA, to ensure it meets solar glass demand by First Solar.

Is China launching a solar subsidiary in Malaysia?

In an exchange filing in Shanghai on Monday, the company revealed it will establish a subsidiary in Malaysia to produce solar photovoltaic (PV) equipment and energy storage products, according to a report published in South China Morning Post today. A power inverter is a critical component of a solar panel system.

Will Malaysian Sheet glass supply TCO glass for solar panels?

A float line at the Johor Bahru factory of NSG's Malaysian Sheet Glass will install online coating capacity soon and start shipping TCO glass for solar panel manufacture after the facility is in operation. It is anticipated that the supply from the converted line will commence in March 2024.
