What is Solar & Storage Live Thailand?

Solar & Storage Live Thailand is an event focused on solar energy generation, solar technology, storage solutions, smart energy, and clean energy innovations. Building on the success of our editions in the Philippines and Vietnam, this event aims to bring big ideas and market disruptions to Thailand's energy transition.

Why should you attend a battery & energy storage exhibition in Thailand?

Held in the vibrant city of Bangkok, Thailand, this exhibition brings together leading companies, experts, and professionals from around the world to showcase the latest technologies, products, and services in the field of batteries and energy storage solutions. Highlights of the event include:

Does Thailand need a battery energy storage system?

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see the country struggle to fulfil carbon neutrality and Net Zero commitments over the coming decades.

What is the main focus of Solar & Storage Thailand?

Solar & Storage Thailand is your one-stop shop to take the pulse of Thailand's solar, energy storage and grid infrastructure market. Networking is at the intersection of all that we do: the Showcase, the Learning, the Fun.

How many mw can a solar generator store in Thailand?

Their total combined storage capacity was 994 MW. Interestingly, this allowed generators to sign semi-firm power purchase agreements (PPAs) with the Electricity Generating Authority of Thailand (EGAT) with minimum availability guarantees. Many solar projects in Thailand have non-firm PPAs in place due to a lack of storage on site.

Why should you attend ASEAN (Bangkok) battery & energy storage Expo 2025?

We believe that your presence at the ASEAN (Bangkok) Battery & Energy Storage Expo 2025 will greatly enhance your understanding of the industry's current trends and future prospects. This event is not only a chance to expand your professional network but also an opportunity to contribute to the global conversation on sustainable energy solutions.
