What is a Jackery solar generator?

Jackery global top-selling solar generators combine portable power stations with solar panels to convert the sun's energy into electricity to power your appliances during camping, RV, and as a backup power supply for home and emergency.

Where can I use a portable solar generator?

Great for using in your holiday home, batch, boat, camper van / RV, caravan, tenting holiday or even out in the bush for a few days. We are proud to announce that we helped co-develop this product and are the first company in NZ today to have a Portable Solar Generator unit available.

Are solar power generators noisy?

With solar power systems, there is no need for fuel, and they are completely odorless and clean, so they can be used anywhere, including inside your home. In comparison to silent portable solar power stations, natural gas generators are relatively noisy, averaging 60-70 decibels. It's comparable to a restaurant or an office. No, thank you.
