Do I need a travel adapter in Hanoi?

The electrical outlets and power plugs in Hanoi are of types A, C & F (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.

Do I need a power adapter in Vietnam?

Whether you'll need a power adapter depends on the type of plug your devices use. Here's a breakdown based on travelers from different countries and continents: In North America, the standard plug types are Type A and Type B, with a voltage of 120V. Since Vietnam uses Type A, C, and F outlets, you'll need a Type A/B to Type C/F adapter.

Are there electrical outlets in Hanoi?

No, the electrical outlets in Hanoi are different from those in the United States. In Hanoi electrical outlets of types A, C & F are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Hanoi? The electrical outlets and power plugs in Hanoi are of types A, C & F (see images).

What type of plug is used in Hanoi?

Type F - Used in almost all European countries and Russia. Also known as the Schuko plug. Plugs of type C and E will also fit in a type F socket. If you're not sure whether the outlets and plugs used in your country are the same as in Hanoi, you can use the tool at the top of this page to check if you need a travel adapter.

Do I need an adapter to use a charger in Hanoi?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Hanoi outlet. Hanoi uses electrical outlets and power plugs of types A, C & F (see images).
