Summary: Dublin, Ireland - ESB has today opened a major battery plant at its Poolbeg site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide grid stability and deliver more renewables on Ireland's electricity system.

The company now has a secured BESS pipeline in Ireland of 300MW with the deal to buy the Thornsberry project from Grid Systems ...

Developer Shannon LNG has obtained permission from the Irish planning authorities for a 600 MW regasification unit and a 120 MW battery ...

Ireland's energy storage capacity could increase almost eightfold by 2035, driven by a growing pipeline of battery projects and calls for stronger ...

As part of ESB's net zero by 2040 strategy, Duffy's team is developing investment options to provide energy storage, grid system services ...

Arup, working collaboratively with national contractor and developer GRAHAM, was commissioned by Northern Ireland (NI) Water as technical ...

Our first large-scale installation in Aghada, Cork, went live in 2022, followed by a 75MW facility at Dublin's Poolbeg Energy Hub, Dublin in February 2024. Now, a second phase ...

The ESB Poolbeg battery plant will add around 75 MW of fast-acting energy storage to make the grid in Ireland more stable.

ESB has today opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability ...

Dublin Battery Energy Storage Project

Cornwall Insight calculates that Ireland's battery storage capacity will reach 13.5 GWh by 2030, up from 2.7 GWh in 2025.

Ireland takes a leap towards clean energy with its largest battery storage facility. Explore the benefits of this 150 MWh project.

Dublin, Ireland - ESB has today opened a major battery plant at its Poolbeg site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide grid ...

The Co. Donegal project has the potential to store half the energy of Turlough Hill due to its unique technology configuration FuturEnergy Ireland ...

The energy storage market in Ireland continues to show strong growth potential, with new additions providing an uptick in activity.

This battery energy storage system (BESS) project is the latest in ESB's pipeline of projects delivered at sites in Dublin and Cork which are part of its investment of up to EUR300m ...

Meanwhile, State-owned electricity company ESB recently opened a major battery plant at its Poolbeg site in Dublin which will add 75MW of ...
