Summary: Tata Power has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to implement a 100MW battery energy storage system (BESS) in Mumbai, India, with plans to complete the installation by 2027.

Will Tata Power install a 100 MW battery energy storage system in Mumbai?

Mumbai, 7th April, 2025 - Tata Power, India's largest integrated power company and a trusted electricity provider to approx. 8 lakh residential and commercial consumers, has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy Storage System (BESS) in Mumbai over the next two years.

Where is a 100 MW battery energy storage system located?

Located near Fort Stockton, Texas, the 100 MW/200 MWh BESS is providing energy... Tata Power, India's largest integrated power company, has secured approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100MW Battery Energy Storage System (BESS) across Mumbai.

Where will a 100MW power system be installed in Mumbai?

The complete 100MW system will be installed across ten strategically located sites, particularly near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power's power system control centre.

Where will Tata Power install a 100 MW power system?

The entire 100 MW system will be installed across ten strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power's Power System Control Center.

Will bharatbms work with energy storage and EV manufacturers?

Starting January 2025, we will be working with energy storage and EV manufacturers to integrate BharatBMS into their products. This collaboration will help standardize battery management across the industry while allowing OEMs to focus on their core strengths in battery and system development.

How will Mumbai's New power system help avert blackouts?

This will help avert widespread blackouts and bolster the resilience of Mumbai's power network. The system's advanced technology will enhance reactive power management, optimising peak demand efficiency and reinforcing the city's overall power infrastructure.
