Summary: On average, module prices fell to 13.7 cents per MW in the first half of 2024, compared with 18 cents per MW for the whole of 2023.

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

Where do solar PV exports come from?

The latest solar PV export data from the world's largest exporter, China, by country or region of destination. Data updated on a monthly basis. An interactive chart showing monthly solar PV exports from China, the world's largest exporter, by selected country or region of destination. China's exports account for 80% of global solar PV exports.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

Which country exports the most solar PV?

An interactive chart showing monthly solar PV exports from China, the world's largest exporter, by selected country or region of destination. China's exports account for 80% of global solar PV exports. Full details available in Ember's China Solar Export Methodology.

What is China's solar export method?

Full details available in Ember's China Solar Export Methodology. The IEA has stated that China's solar photovoltaic exports account for 80% of the global market. While there is a wide variety of products that make up the solar supply chain, panels, cells and wafers make up the majority of exports by trade value, and can be expressed in GW terms.

How much does a Topcon 600 W module cost in China?

China: The Chinese Module Marker (CMM), the OPIS benchmark assessment for TOPCon 600 W modules from China, rose 1.19% to \$0.085/W Free-On-Board (FOB) China, with price indications ranging from \$0.082/W to \$0.090/W. Meanwhile, FOB China Mono PERC module prices remained unchanged at \$0.084/W, with prices ranging from \$0.081 to \$0.088/W.

InfoLink's customs data shows that China exported about 23.38 GW of PV modules in March 2025, up 44% MoM but down 5% YoY from 24.51 GW. China's total module exports ...

By the end of May 2024, total exports of PV modules this year totaled \$13.62 billion, or about 97.9 GW. From the country distribution point of view, the Netherlands, Brazil, ...

Exports of solar panels from China increased by 34% in the first half of 2023 compared to the same period last year.

This report encapsulates quarterly trends in module demand and supply, import and domestic production volumes, supplier market share, break-up by technology and rating, ...

June PV module exports: ~19.22GW (?6.7% MoM, ?14.7% YoY). Average export price: \$0.10/W (flat MoM). Jan-Jun total exports: ~119.21GW. Module prices continued rising, ...

Overview This report includes summary data for the photovoltaic industry from annual and monthly respondents. Data include manufacturing, imports, and exports of modules in the ...

The solar industry in India is experiencing a significant price hike in Solar PV modules, creating ripples across the value chain. For solar EPCs ...

On average, module prices fell to 13.7 cents per MW in the first half of 2024, compared with 18 cents per MW for the whole of 2023. This 30% ...

In a new weekly update for pv magazine, OPIS, a Dow Jones company, reports that TOPCon modules from China held steady at ...

The supply-demand gap also affects solar module prices, a critical factor for the price-sensitive residential rooftop solar segment Leading ...

In 2024, the export value of solar photovoltaic modules worldwide stood at approximately ***** billion U.S.

China: According to the OPIS Solar Weekly Report released on July 22, the Chinese Module Marker (CMM), the OPIS benchmark ...

An interactive chart showing monthly solar PV exports from China, the world's largest exporter, by selected country or region of destination. China's exports account for 80% ...

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n ...

Polysilicon This week, the upstream polysilicon sector saw no significant recovery in trading volumes. Recent industry discussions have focused on manufacturers adjusting ...
