Summary: For simple replacement of damaged car battery terminals, common repair costs include: Parts - \$5 to \$60 1. Battery terminal posts/studs (\$5-\$20 each) 2. Terminal wire. . The car battery terminals include the metal posts that directly attach to and protrude from the battery itself to provide connection points, the battery cables that attach to the posts. . Several important factors influence the total cost of replacing worn or damaged battery terminals: 1. Number of battery terminals needing replacement- The more that are corroded, the higher the parts and labor. 2. Extent of corrosion and damage- Severe corrosion. . Watch for these common indicators that the battery terminals are damaged or corroded and likely need replacement: 1. Visible white, green, or blue corrosion around the terminals.. . Having a professional mechanic replace terminals typically costs \$100 to \$300including labor and parts. DIY battery terminal replacement can cost as low as \$20 to \$60in just.

-----  
How much does a battery terminal replacement cost?

A battery terminal replacement can cost around \$20 to \$30, including labor. Thankfully, it's not one of those costly repairs that car owners dread, like replacing spark plugs or an engine block. However, simply replacing the battery terminals isn't enough, you also need to ensure the replacement works.
