Summary: The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.

How much do solar panels cost?

The typical cost of a solar panel system is between \$15,000 to \$25,000, depending on system size and complexity. Furthermore, as demand for how much do solar panels cost grows, market prices are influenced by global factors such as supply chain disruptions and material costs.

How much do solar panels cost in China?

For instance, as of December 2023, the cost of solar modules in China was \$0.15 per watt, significantly lower than in India (\$0.22 per watt), Europe (\$0.30 per watt), and the USA (\$0.40 per watt). This means that components made in China are 50% cheaper than those made in Europe and 62.5% cheaper than those made in the USA.

How much does a solar system cost per watt?

As of publishing, the average cost per watt is \$2.84. Most solar companies set the price according to the solar system's wattage. A solar installation's "cost per watt" is a little like the "price per square foot" when you buy a house. It helps compare the value of solar energy systems in different sizes.

Are solar panels expensive?

No, solar panels in the USA are not considered expensive. On average, a 6.6 kW solar panel system typically costs around \$16,000, not considering government incentives and rebates. Solar panel costs in the US usually range from \$4,500 to \$36,000, or \$1.00-\$3.60 per watt (W).

How much does a 5 kilowatt solar system cost?

The price of a typical 5-kilowatt solar system, which includes additional components like an inverter, is usually priced between \$8,000 and \$18,000. The exact cost varies depending on the number of solar panels, the brand, the installer, and available incentives.

How much does solar installation cost?

On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system. What else affects solar installation costs?
