Can a photovoltaic system be mounted on a tiled roof?

First things first: novotegra mounting systems are ideally suited for mounting photovoltaic systems on tiled roofs. They were specially developed for this purpose. At novotegra, you and your customers can choose between different mounting systems.

Can a solar system be installed on a flat roof?

The system is fully constructed from aluminum and designed specially to accommodate mainstream solar modules. The system can be assembled and placed directly onto the flat roof without the need of drilling holes into the mounting surface, which ultimately eliminates the risk of water leakage through the roof.

Can a solar module be mounted on a pitched roof?

And: depending on the individual circumstances, such as skylights, chimneys, etc., the solar modules can be mounted both portrait and vertically on the pitched roof. Suitable mounting materials, tools, mounting aids and matching accessories are also part of novotegra's range.
