Does Tradecorp Indonesia offer a silent-type generator set container?

Tradecorp Indonesia offers a silent-type generator set container as a reliable backup power solution that remains easily portable. Tradecorp's generator set container complies with ISO standards and is available in 20ft or 40ft container sizes.

What is a 20 feet genset container?

The 20 Feet Genset Container is a non-cargo container designed specifically to house electrical generator sets or genset, not intended for transporting goods. Genset or Generator Containers can be identified by the SJ code listed on the door end of the container.

How do I identify a genset or generator container?

Genset or Generator Containers can be identified by the SJ code listed on the door end of the container. The presence of genset is crucial as they serve as emergency power sources during electrical outages.

What is a generator set container?

The generator set containers offer optimal protection for generator engines against extreme weather conditions, dust, and other potential hazards. The robust construction of the containers also enhances security, helping to prevent theft and unauthorized access. Generator set containers are designed for quick and hassle-free installation.

What size generator set container does Tradecorp offer?

Tradecorp's generator set container complies with ISO standards and is available in 20ft or 40ft container sizes. The unit is easy to relocate thanks to corner castings and forklift pockets, which allow for the use of cranes or forklifts, making it a sturdy, corrosion-resistant, and functionally optimal choice.

What is a power generator PT?

A portable load measurement device intended to replicate, prove, and verify real-life demands on power sources such as generator sets. A dependable air compressor system, fully equipped with engine and electrical panels in an enclosed container, providing all-in-one solution to any need.
