Summary: China's REPT Battoro has revealed plans to build a lithium-ion battery plant in Indonesia, targeting 8 GWh of annual production capacity in the first phase.

Why is Indonesia a leader in the lithium battery industry?

In 2024, Indonesia stands at the forefront of the rapidly evolving lithium battery industry, catalyzed by its significant reserves of raw materials essential for battery production and a growing focus on renewable energy sources. As Southeast Asia's largest economy, Indonesia has strategically positioned itself as a

When will Indonesia's lithium-ion battery plant be in operation?

REUTERS/Tyrone Siu/File Photo Purchase Licensing Rights JAKARTA, June 29 (Reuters) - A lithium-ion battery plant by an Indonesian company and China's CATL is expected to be in operation by the end of 2026 with initial capacity of 6.9 gigawatt hours, an Indonesian official said on Sunday.

Will China build a lithium-ion battery plant in Indonesia?

China's REPT Battoro has revealed plans to build a lithium-ion battery plant in Indonesia, targeting 8 GWh of annual production capacity in the first phase. From ESS News Hong Kong-listed REPT Battoro has announced plans to invest in a new battery production facility in Indonesia.

Where is Indonesia's New battery plant located?

The battery plant, located in Karawang, West Java, represents a \$5.9 billion investment. Key stakeholders include Indonesia Battery Corporation (IBC), mining giant Aneka Tambang, CATL, Brunp Recycling (a CATL subsidiary), and Chinese battery materials producer Lygend Resources. The facility is designed with capacity of up to 15 gigawatts (GW).

What is Indonesia's New integrated battery industrial park?

The newly developed integrated battery industrial park there is a critical part of Indonesia's end-to-end battery supply chain strategy. The CATL's new battery plant, located in Karawang, West Java, represents a \$5.9 billion investment. (Photo: CATL)

Who is supplying power batteries in Indonesia?

The production would be supplied to both domestic and foreign markets. A \$6 billion power battery project agreed upon in 2022 by Indonesian enterprises, including state miner PT Aneka Tambang Tbk, opens new tab, and a CATL consortium includes the partnership between Indonesia Battery Corp and the Chinese behemoth Contemporary Amperex Technology Co.

Indonesia wants to become an EV battery producer and exporter, aiming at 140 GWh in 2030--from zero production capacity today.

Discover how LG's \$1.7 billion battery factory in Indonesia secures raw materials while boosting the nation's EV ambitions.

Tsingshan and Chengxin To Produce Lithium in Indonesia Tsingshan Holding Group, the Chinese firm that shook the nickel world by rapidly boosting output in Indonesia, is ...
