Who owns the telecommunications market in Mexico?

Mexico's telecommunications market is dominated by three main mobile network operators: Telcel (owned by America Movil), Movistar (owned by Telefonica) and AT&T Mexico (owned by a US telecom giant AT&T). In addition, Red Compartida, operates in the country as a shared network available for MVNOs using the 700 MHz LTE spectrum.

What services does Mexico tower partners offer?

The company offers services such as tower leasing, co-location, and Build-to-Suit solutions for telecommunications projects. Mexico Tower Partners primarily serves telecommunications carriers and technology companies in need of wireless infrastructure. It is based in Mexico.

Is Mexico's telecom market a potential market for independent tower companies?

The limited commercial potential currently offered by the Mexico's telecom market to independent tower companies, saw DigitalBridge and Macquarie Mexico Infrastructure Fund explore the sale of its portfolio company, a towerco Mexico Telecom Partners (MTP) in 2021 for the estimated sum of US\$1bn.

Who is Mexico Tower Partners?

Mexico Tower Partners is a private company specializing in telecommunications infrastructure ownership and operation. The company offers services such as tower leasing, co-location, and Build-to-Suit solutions for telecommunications projects.

Who is the largest mobile operator in Mexico?

Telcel, the brand under which a subsidiary of America Movil operates in the country, is the largest mobile operator in Mexico, with over 81 million subscribers. America Movil, the parent company of Telcel, is the largest telecommunications company in Mexico and Latin America, with a market share of over 70% in the mobile market.

Does American Tower have a telco portfolio in Mexico?

Time will tell whether these efforts are successful to keep the company afloat while the country's telco structure changes and more funds become available for BTS and other staple towerco projects. As of Q3 2022, American Tower owns 9,627 telecom towers in Mexico, along with a separate fibre portfolio.
