What is a NOCO battery charger?

A high-frequency, high-efficiency power supply engineered for efficient energy transfer. Established in 1914, NOCO designs and creates premium consumer battery chargers, jump starters, lithium batteries, and a wide range of accessories. Through these world-class offerings, we have effectively set a new standard in design, performance, and safety.

What makes NOCO a great brand?

Established in 1914, NOCO designs and creates premium consumer battery chargers, jump starters, lithium batteries, and a wide range of accessories. Through these world-class offerings, we have effectively set a new standard in design, performance, and safety. We aim to make exceptional products that provide consumers with the ultimate experience.

Are NOCO batteries IP68 rated?

For marine applications or outdoor installations, the IP68-rated models provide essential protection against the elements. NOCO offers single-bank and multi-bank charging options. Single bank chargers like the Genius 1, 2, 5, and 10 can charge one battery at a time. Unless the batteries are wired together in series or parallel.

What is NOCO xgc4?

We are NOCO. The XGC4 is a 56-watt power adapter for rapidly recharging NOCO Boost UltraSafe Lithium Jump Starters models - GB70, GB150, GB250+, GB251+ and GB500+. It safely recharges up to five times faster than traditional USB wall or car charger. Designed to work anywhere in the world with a wide input range of 110-240VAC 50-60Hz.

Why should you buy a NOCO genius battery charger?

Energy Efficiency - Designed for minimal power consumption during operation and standby modes. These features make NOCO Genius chargers an excellent choice for both everyday and professional users, providing safe, automatic, and efficient charging across a wide range of battery types and sizes.

Are NOCO chargers water resistant?

NOCO chargers feature varying levels of environmental protection, indicated by their IP (Ingress Protection) ratings. IP60: Complete dust protection but no water resistance. Suitable for indoor use in clean environments. IP65: Full dust protection and resistance to low-pressure water jets from any direction.
