Summary: Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products.

What is the largest energy company in Norway?

The largest energy company operating in Norway is Equinor ASA, which was renamed from Statoil ASA in 2018. The company was created by the merger of Statoil and Norsk Hydro in October 2007. Norway's government is the company's largest shareholder, owning a majority stake of the company.

Who is Nordic batteries?

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from norwegian battery cells.

What is the eBox energy storage system?

eBOX is a compact 7ft Energy Storage System designed to work both off-grid or connected to different power sources. The eBOX was developed by ZEM in close collaboration with Moen Marin and Nordic Batteries to hybridize fishing vessels. Its compact size enables implementation in various environments without compromising capacity.

What is Cartesian thermal energy storage?

The solution is ideal for retrofits or new builds, with easy installation both indoors and outdoors. Cartesian unlocks the power of thermal energy storage to boost energy efficiency and rapidly reduce your carbon footprint.
