Who is Canadian off grid?

Canadian Off Grid is a family owned business supplying off grid living products. We provide sales, service and installation of propane fridges/ranges, solar fridges/freezers, solar system equipment and alternative energy. Propane wall heaters, on demand water heaters, composting and incinerating toilets. (C) 2025 Canadian Off Grid.

Is a DC inverter a good choice for an off-grid system?

Most of your loads will be AC, but in an off grid system there may be some loads that can be replaced with alternatives that run off DC directly. The advantage is this avoids the losses that occur when an inverter converts the DC battery voltage into 120VAC. Thus your system is slightly more efficient.

What is an off-grid Solar System?

Off Grid Solar Systems provide electricity in a closed system environment without any Hydro connection. Ideal for remote areas, these systems use a combination of solar panels, batteries, and a generator to provide power where hydro is not possible or too expensive to bring in.
