Does Canberra have battery storage?

Battery storage for residential solar energy is becoming increasingly popular in Australia - including in Canberra, ACT. If you're a Canberra resident looking to install a battery storage system for your home, what are the main things that you need to consider?

Why should you choose a solar energy storage system in Canberra?

Solar panels enable homeowners and businesses in Canberra to gain access to clean and green energy. With solar batteries, you can store any surplus electricity that your system generates for later use. A solar energy storage system offers many advantages including: The Tesla Powerwall gives you backup power when you need it most.

Why should you invest in solar panels in Canberra?

Increase your savings, reduce your carbon footprint, and achieve energy independence. Solar panels enable homeowners and businesses in Canberra to gain access to clean and green energy. With solar batteries, you can store any surplus electricity that your system generates for later use.

Who are Canberra solar battery installers?

Our Canberra solar battery installers are fully accredited by Solar Accreditation Australia. We offer guaranteed workmanship on all our solar power projects for five years.

Will solar batteries be the dominant form of battery storage in Australia?

Bloomberg New Energy Finance estimates that by 2020, solar batteries will be the dominant form of battery storage. Analysis by the Smart Energy Council from the survey and interviews with market participants for this report suggests battery manufacturing costs are likely to fall in Australia by around 15% each year to 2020.

How many energy storage systems are there in Australia?

There is no national register of energy storage systems in Australia, making it difficult to estimate the number of energy storage systems. This analysis is based on existing Clean Energy Regulator data, a national survey by the Smart Energy Council, interviews with energy market participants and a comprehensive literature review.

Located at Williamsdale in the south of Canberra, the battery will store enough renewable energy to power
