Summary: In January 2024, Romania allocated EUR80 million (\$90. 1 million) under its national recovery and resilience plan (PNRR) for energy storage projects, which is expected to result in contracts for a total of 1.

Does Romania have a battery energy storage plan?

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via its National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in the country's northwest has flipped the switch.

Does Romania have a solar PV market?

Our sister site PV Tech has covered Romania's solar PV market extensively. The Ministry also announced a EUR199 million call to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, also funded through the NRRP, with EUR149.25 million for new battery production, assembly and recycling facilities.

Will NRRP support Romania's battery and solar photovoltaic manufacturing sectors?

The Ministry of Energy has recently announced a call for proposals to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, worth EUR199 million and funded through the NRRP.

What is Enery doing in Romania?

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a 51.4 MW PV plant and and a battery energy storage facility of 22 MWh.

How much money will Romania spend on solar projects?

Meanwhile, the remaining EUR49.75 million is intended for new projects in Romania that would add solar PV cell and module (panel) production, assembly and recycling capacity to the tune of at least 200MW per year by mid-2026.

How will Romania grow its energy storage fleet?

Romania aims to exponentially grow its energy storage fleet over the next couple of years, as it works on its plan to deliver 36% of the nation's energy to come from renewables by 2030, with 8.3 GW of solar and 7.6 GW of wind, and phase out coal by 2032.

Romania is set for a significant expansion in the photovoltaic sector in 2025, driven by funding programs such as Casa Verde and RePower EU, the liberalization of energy prices, ...

Romania PV Energy Storage Quotation

Romanian utility Electrica S.A. Group has launched a tender for the deployment of a battery energy storage project with a power output of 35MW and a storage capacity of 70 ...

The evolution of Romania's Solar PV market its renewable energy journey - over 1 GW of new solar capacity installed in one year between distributed generation and utility scale projects. ...

The renewable energy sector in Romania is at an exciting crossroads, with the country looking to address both domestic energy demand ...

Bucharest, Romania - OctoAs Romania pushes towards achieving 5 GW of energy storage by 2026 and 8 GW of renewable energy capacity by 2030, the ...

In a milestone for Romania's green energy push, the country's Energy Minister Sebastian Burduja has signed the nation's first financing ...

Romania's Ministry of Energy has reached two additional milestones under the National Recovery and Resilience Plan related to battery ...

The Romanian Photovoltaic Industry Association (RPIA) says Romania installed 1.7 GW of solar in 2024, as increased funding, higher ...

The Ministry of Energy has recently announced a call for proposals to support Romania's battery and solar photovoltaic (PV) manufacturing ...

DNO and IPP Electrica has received EUR3.4 million (US\$3.8 million) in EU grants for a c.70MWh BESS project it will build in Romania.

79.6 million (US\$85.7 million) in funding is available for the BESS projects. The call has been relaunched by the Ministry after an initial launch in ...

Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR150 million (\$158 million). With the funding secured from the ...

Romanian utility Societatea Energetica Electrica received EUR 3.4 million in state aid for a 69.9 MWh battery storage project, with the funding ...

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing ...

DNO and IPP Electrica has secured EUR3.4 million (US\$3.8 million) in EU grants for a battery energy storage system (BESS) project in Romania.
