How much do solar panels cost in New York?

As of 2024, the average cost of solar panels in New York is \$3.30 per watt, making a typical 6.9 kilowatt (kW) solar system \$16,632 after claiming the 30% federal solar tax credit now available. This is higher than the average price of residential solar power systems across the United States, which is currently \$3.00 per watt.

Why should you choose New York Power Solutions?

Over 5,000 New York residents now have solar from New York Power Solutions. You can become energy independent and enjoy the benefits of affordable and reliable solar. Our team is ready to make it happen. Your investment in solar pays dividends over time. Solar is cleaner and can reduce your carbon footprint to help preserve our environment.

Does New York power solutions offer a warranty?

Your solar system from New York Power Solutions is provided with a 25-Year Warranty! Solar works throughout the year, no matter the season. Installation is affordable and more than half the cost may be covered with state and federal tax credits and rebates.

How much does a 6kW Solar System cost in New York?

The average cost for a 6kW system in New York is \$24,000. With the 25% New York solar tax credit, the price is reduced to \$18,000. On top of this, you can still claim the 26% federal solar tax credit, further reducing the cost to \$11,760. The average electric bill in New York is \$150 per month.

Who is New York Power Solutions?
