What is Abu Dhabi's electric vehicle charging policy?

Announced today by the Abu Dhabi Department of Energy (DoE), the policy sets out the stipulations and criteria for establishing a network of electric vehicle charging stations across the UAE capital.

Why is Abu Dhabi launching EV charging policy?

The department said the policy would enable necessary investments into the EV charging infrastructure and help in tackling concerns about range anxiety. This, in turn, should also encourage consumers to purchase and use EV vehicles in the emirate, it said. Abu Dhabi on Monday hosted the inaugural Electric Vehicle Innovation Summit.

Will electric vehicles become mainstream in Abu Dhabi?

At the present time, the uptake of electric vehicles in Abu Dhabi is still in its infancy, but the DoE has projected that technical developments in the near future are likely to result in increased customer demand for these vehicles that will likely become mainstream in the emirate over the coming decade and onwards.

How will EV charging policy impact the Emirate?

The policy will enable necessary investments into this EV charging infrastructure and help tackle this range anxiety. This should in turn, also encourage consumers to purchase and use EV vehicles in the emirate.

Does DOE support Abu Dhabi's low emission vehicle strategy?

DoE's policy supports Abu Dhabi's Low Emission Vehicle Strategy aimed at diversifying the sources of energy used in the transition towards electrification.

Why should Abu Dhabi invest in EVs?

The Emirate of Abu Dhabi aspires to enable such transition in the Sector of surface transport, and to enhance the use of EVs, to garner benefits to the community, accelerate the fight against climate change, improve the local air quality and protect the environment, while supporting the UAE's efforts in achieving Net Zero emissions target by 2050.
