What is a 1500 watt pure sine wave inverter?

The 1,500W 12V Pure Sine Wave Inverter is delivered with a 2-year manufacturer's warranty covering faults and material defects. Make 4 payments of \$314.50 over 8 weeks and get it now! This 1,500W Pure Sine Inverter produces a pure sine wave, which is essential for powering 240V equipment. REDARC BCDC Smart Charger Review & Features Explained.

How much power does a sine wave inverter provide?

Long term payment plans available now. This pure sine wave inverter is capable of providing 1,500W continuously and a 3,000W surge. Ideal for powering microwaves, power tools, TVs, and other power thirsty devices when you are away from mains power. It features a standard 240VAC mains outlet as well as a USB port (2.1A) to charge USB devices.

How does a 1500 watt inverter work?

With different insurance circuits worked in, the 1500 watt inverter will consequently close down at low voltage or in case of an abrupt difference in input/yield power. The inverter likewise shows impressive execution and unwavering quality control during fast ecological changes like surrounding temperature.

Does a 1500 watt inverter have a programmable relay?

The 1500 watt inverter is equipped with a programmable relay, which by default is set as an alarm relay. The relay can be programmed for all kinds of other applications, however, for example, as a starter relay for a generating set.

How do I charge a 12V inverter?

It features a standard 240VAC mains outlet as well as a USB port (2.1A) to charge USB devices. To avoid your 12V battery going flat, a low voltage alarm will alert you when the battery voltage reaches 10.5V, and then shutdown the inverter when the battery reaches 10V.

What is a 240V inverter & how does it work?

It draws power from your 12V battery while you're on the road, providing you with the same type of 240V power you get at home no matter where in Australia you find yourself. Ideal for campers, caravans, and the like, this slim and lightweight inverter ensures that your appliances run smoothly and efficiently, producing less heat and noise.
